

Guilherme Rodrigues Vieira

Date of birth: 14/05/2001 | **Nationality:** Portuguese | **Phone number:**

(+351) 960013924 (Mobile) | **Email address:** guilherme2001vieira@hotmail.com |

Address: Urbanização das Amendoeiras Lote 15 r/c D , 8400-204, Ferragudo, Portugal (Home)

WORK EXPERIENCE

16/06/2019 – 04/07/2019 Portimão , Portugal

COMPUTER STORE INTERNSHIP (SECONDARY SCHOOL) PCCLINIC

Performed activities:

- Perform computer analyses/inspections.
- Disk cleaning/disk formatting.
- Installation of programs and Operating System.
- Clean and inspect the various parts of computers.

17/02/2022 – 04/07/2022 Portimão, Portugal

IT STORE INTERNSHIP (CTESP) PROFICÓPIA

Performed activities

Printers Department:

- Understanding the printer implementation process phases in corporate environments, including configuration and troubleshooting.
- Printer repair, including replacement of components with complex problems.
- Print configuration, performing print quality tests and creating presets for different types of print jobs.

IT department:

- Cloning disks and creating backups are essential for customer equipment maintenance.
- Installing operating systems and software, activating licenses, and configuring remote access tools.
- Testing and repairing receipt printers, configuring POS, installing SQL, and defining products and prices.
- Implementation of Ubiquiti devices in networks, covering Access Points (APs) and broadband devices.
- Actively monitoring projects, including NAS and UPS system implementations in businesses.

Parchal, Portugal

CUSTOMER SUPPORT ASSISTANT AND BACKEND DEVELOPER WALLSTREETERS (STARTUP)

About Wallstreeters:

- Wallstreeters is a platform offering tools to simplify the interpretation and analysis of financial indicators, catering to a diverse range of investors, from novices to experts. We provide a clear and comprehensive view of the financial market.

Activities Performed:

- Establishing partnerships with influencers and managing partnership agreements.
- Developing and continuously maintaining the underlying programming of the platform.
- Creating calculation algorithms and implementing artificial intelligence in the platform.
- Coordinating small sub-projects within the parent company's structure.

● **EDUCATION AND TRAINING**

14/09/2017 – 15/07/2020 Portimão, Portugal
COMPUTER EQUIPMENT MANAGEMENT TECHNICIAN Escola Secundária Poeta António Aleixo

Address Av. 25 de Abril 4, 8500-510, Portimão, Portugal | **Website** <https://www.aepaa.pt> | **Final grade** 15 Score

26/09/2020 – 20/07/2022 Beja, Portugal
CTESP - COMPUTER NETWORKS AND SYSTEMS Instituto Politécnico de Beja

Computer Networks
Information Security
Operating Systems and Virtualization
Server Administration
Network Design and Maintenance

Website <https://www.ipbeja.pt> | **Final grade** 16 Score

26/09/2022 – CURRENT Beja, Portugal
DEGREE IN COMPUTER ENGINEERING (ONGOING) Instituto Politécnico de Beja

Programming: C, C++, Python, Java, Julia
Databases and Applied Mathematics
Computer Networks, Operating Systems, and Virtualization
Web and Mobile Technologies: Kotlin, HTML, CSS, JavaScript, React
Network Communication Security and Systems Administration
Group Dynamics and Communication, Marketing, and Entrepreneurship
Completion of Internship and Integrated Project (Ongoing)

Website <https://www.ipbeja.pt> | **Final grade** 15 Score (Ongoing)

● **LANGUAGE SKILLS**

Mother tongue(s): **PORTUGUESE**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C1	C1	C1
SPANISH	C1	C1	B1	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **ADDITIONAL INFORMATION**

PROJECTS

Final Course Project (Secondary School) I carried out a project involving the construction of two boats, in which I had the opportunity to design and build their respective wooden structures. Additionally, I integrated various mechanical components and programmed these parts using Arduino.

One of the boats was designed with a high-power engine, aiming to achieve considerable speeds, making it ideal for high-speed transportation. On the other hand, the second boat was designed to be larger and, consequently, slower.

This project provided me with valuable experience in various areas, including mechanical engineering, electronics, and programming. Furthermore, the ability to design and build two boats with different purposes demonstrated my skill in tackling engineering challenges from the design phase to practical implementation. This experience significantly contributed to my academic and practical development in the field of engineering and technology.

09/03/2021 – 20/01/2022

Street Workout Park - Ferragudo I initiated a project focused on establishing a Street Workout park, a sport in which I am actively engaged. Following the submission of the proposal, it received approval from the Ferragudo Parish Council, with significant financial and decisive support from the Lagoa City Council, Algarve.

The primary objective of this project is to promote and encourage regular physical activity within the parish. The Street Workout park will serve as a dedicated space, offering suitable infrastructure for outdoor exercises. The initiative aims not only to create a venue for sports activities but also to cultivate a healthy and active lifestyle among the community's residents.

The involvement of the Ferragudo Parish Council and the Lagoa City Council, Algarve, signifies a noteworthy step towards realizing this project, demonstrating the commitment of local authorities to the well-being and quality of life of citizens. The financial and decisive partnership of these entities is crucial for the success and long-term sustainability of the Street Workout park.

I am confident that the establishment of this space will not only enhance the array of sports options in the parish but also contribute to strengthening community bonds, providing a meeting and socializing place for Street Workout enthusiasts and the general population. This project underscores my dedication to improving the quality of life in the local community by promoting healthy habits and sports participation.

HOBBIES AND INTERESTS

Street Workout I actively engage in Street Workout, a form of exercise that combines calisthenics, strength, and creativity to achieve fitness goals. As a Street Workout enthusiast, I continually seek challenges that promote both physical and mental development. Beyond personal dedication, I've contributed to the community by initiating a project to create a Street Workout park, approved by the Ferragudo Parish Council and supported by the Lagoa City Council, Algarve. This passion reflects my commitment to an active and healthy lifestyle, emphasizing the importance of physical and mental well-being.

Traveling I have a deep passion for traveling, driven by the desire to explore new places and immerse myself in diverse cultures. My most recent journey took me to the Dominican Republic in November 2023, where I had the opportunity to experience the unique beauty and traditions of the country. Traveling, for me, is not just about visiting tourist spots but about embracing the richness of each destination. It involves connecting with locals, trying authentic cuisines, and understanding the unique histories that shape different regions. My enthusiasm for travel extends beyond being a spectator; it's an active engagement with the world. Just as I've contributed to my community through Street Workout, I believe in the transformative power of travel to broaden perspectives and promote cultural understanding.
